

intimus HDD Granulator

HIGH-PERFORMANCE GRANULATOR FOR HDDS

Industrial

Flexibility is the key: HDD Granulator with adjustable security levels thanks to exchangeable screens.

Shredding material:

- HDD
- Floppy disk
- Data tape
- Plastic card
- CD / DVD / Blu-ray

Security requirements for the destruction of sensitive data are increasing all over the world. What was sufficient yesterday may not be sufficient tomorrow. A future-proof investment means having a flexible solution: With the intimus HDD Granulator, security levels of produced particles and throughput can be varied by simply changing the screens. Thanks to its unique hybrid technology, the intimus HDD Granulator combines the advantages of a shredder and a disintegrator. Perfect for reliable and economical shredding of HDDs, floppy disks, data tapes, plastic cards, CDs/DVDs and Blu-rays. The sturdy rectangular steel tube base frame accommodates a standard 240-litre waste bin to collect the shredded material for direct disposal.

KEY FEATURES

- Industrial application for the destruction of HDDs up to 5,25 inch.
- Can even handle enterprise HDDs and HDDs with server frame.
- Meets highest security levels - available screens allow you to cover security levels up to H-5.
- More screens available on request.
- Easy waste disposal thanks to the mobile standard waste bin with 240-litre capacity.
- Solid steel housing and a powerful motor guarantee a long product lifetime.
- Made in Germany is a promise of quality and durability.

SPECIFICATIONS

Area of application	Industrial
Screens (HDD)	14 mm (Throughput: HDD up to 70 units/h, approx. 37 kg/h) (Security level: H-5, O-3, T-4) 12 mm (Throughput: HDD up to 40 units/h, approx. 22 kg/h) (Security level: H-5, O-3, T-4) 10 mm (Throughput: HDD up to 25 units/h, approx. 14 kg/h) (Security level: H-5, O-4, T-5) 8 mm (Throughput: HDD up to 20 units/h, approx. 10 kg/h) (Security level: H-5, O-4, T-5) w/o screen (Security level: H-3, O-2, T-2)
Shredding material	HDD, Floppy disk, Data tape, Plastic card, CD / DVD / Blu-ray
Waste disposal solution	Mobile standard waste bin
Intake width HDD (mm)	330
Bin volume (l)	240
Continuous Running	yes
Noise level (idle operation) dB(A)	70
Motor power consumption (W)	4.400
Power supply (V / Hz)	400 / 50
Other voltages available	yes
Product dimensions W x D x H (cm)	138 x 77 x 213
Product weight (kg)	1.060
Control operation	Buttons
Stand-by mode	yes
Hour meter	yes
Material jam protection	yes
Lockable master switch	yes
Material machine housing	Metal
Material cutting blades	Induction-hardened solid steel
Made in Germany	yes
Certificates / Listings	CE, UKCA
